GENERAL CHART of TERRA AUSTRALIS OR AUSTRALIA;

SHOWING

THE PARTS EXPLORED BETWEEN 1798 AND 1803,

by

M. FLINDERS COMM.R OF H.M.S. INVESTIGATOR.

Explanation of ... used in the Charts of this Atlas.

At Sea.

The dotted parts of the tracks were run in the night, or in very thick weather.

1. Situations, at noon, from lunar observations.
2. At which no observation could be had.
3. Place of observed latitude by the sun.

T.K. Place of observed longitude by time keeper.

Direction of the current.

Direction of the tide generally the flood.

Light airs, direction shewn by the arrow.

Light breze.

Moderate breze.

Fresh breze.

Strong breze.

Fresh gale.

Hard or stiff gale.

The kind of weather is marked under the arrows: a line with it implies an overcast night, and two with an extensive degree of that weather.

The distance of the ships land under the azimuths and amplitudes are by compass, amplitudes are by compass.

TIMOR

and some neighbouring Islands;

by M. Flinders,

Comm.r of H.M.S. Investigator.

1803.

South Latitude

Note.

All the unshaded Coasts, the Shoals surrounded with a double row of dots, and the Soundings written at right angles, are taken from the charts of Adm.l D'Entrecasteaux, Lt. Mr. Cluer, and Capt.n Hayward, & the journals of Dampier, Cook, and Bligh; with the rest filled in from Dutch manuscripts published by Mr. Dalrymple: where no hills are shaded, these last are commonly the sole authority. They are all arranged to my longitude in the Investigator and Cumberland.

TIMOR

Great SAHUL Shoal

This Shoal is said to be dry in some parts. The Malays of Macassar formerly came to fish upon it for Trepang. It is here marked principally from the Dutch charts.
